**PERSONNEL ANNOUNCEMENTS – INSIDE SALES TEAM**

We are pleased to announce that, effective immediately, Kristopher (a.k.a Kris) Stevens has accepted and will take on the role of Inside Sales Manager at Conval, Inc. In this role, Kris will be responsible for managing and driving the various functions of Inside Sales, including quotations, order entry, expediting, communications and supervision of the Inside Sales team. His 8 ½ years of experience in the Navy and the 7 years at Conval will serve him well in this new role, as well as his expertise in systems and process improvement. Kris takes on this role at a critical juncture in Conval's history, as we work to maintain service levels during the Coronavirus pandemic. Please join me in congratulating Kris and his wife Kortney and wishing him all the best in his new role at Conval.

As we welcome Kris to his new role, we wish Austin Wilkie all the best as he leaves Conval to embark on his next, new life adventure. Austin served Conval as Inside Sales Manager for close to 30 years, during which time the company grew in size, in sales and in market stature. Conval owner, Frank Siver, (see photo below) said "Austin's contributions to Conval over the years have been both many in number, and significant in effect. We will miss him." Please join us all at Conval in thanking Austin for all he has done over the years, and wishing him well in the future.
